

Dear Parents,

On September 14 we will watch a recorded sermon in class and do a together a sermon summary sheet like the ones that follow. Throughout the year, I will ask that the students complete sermon summaries. The due date is on the sermon summary, they are placed further up in the packet to give a number of Sundays or services prior to the due date.

The goal of these assignments is to encourage active listening in worship, encourage applying the Bible truths heard on Sunday, and serve as a reminder that the coal of confirmation is not being done with studying God's Word but preparing for a life of listening to and living God's Word in love for all our Savior has done for us and given us.

One way to help get the students get the most out of the sermon summaries and have a neat opportunity for you to take part in your God given assignment to instruct your children in God's Word is for you to look over what your child writes and discuss it and the sermon with them.

If you have any questions, don't hesitate to contact me.

In Christ,

Pastor Joe
